Dear Sir/Madam

Public Comment Submission to the Delegate's Interim Decisions from the November 2018 meeting of the Advisory Committee on Chemicals Scheduling (ACCS)

We refer to the notice published on 7 February 2019 of the Delegate's interim decisions under subsection 42ZCZP of the Therapeutic Goods Regulations 1990, inviting public submissions, with respect to certain substances, addressing a matter raised in section 52E of the Therapeutic Goods Act 1989.

Accord Australasia Limited is the peak national industry association that represents the hygiene, cosmetic & specialty products industry.

Accord provided comments on the following agenda items for the November 2018 meeting:

- 2-chloro-p-phenylenediamine

As noted in our pre-meeting submission, we do not expect any significant regulatory impact from this clarification confirming that halogenated derivatives are indeed captured in the existing scheduling entries for phenylenediamines. As such, we have no objections to the interim decision.

We look forward to further advice from the Delegate. Should the Committee or the Delegate require any additional information from Accord please do not hesitate to contact me on 

Yours Sincerely

[unsigned for electronic submission]

Rachael Linklater
Manager, Regulatory Science & Technical
