To Whom it may concern,

I, John Nguyen of [REDACTED], am the director of Market City Pharmacy.

I am in full support of the rescheduling of CBD products to schedule 3 as per the "Proposed amendments referred for scheduling advice to the joint ACMS-ACCS #25".

The data that supports the safety profile and efficacy of CBD in pain management combined with the evidence of harm reduction due to reduced opioid use is irrefutable and so the proposal has 100% of my support.

Kind regards,

John Nguyen
Director
