Therapeutic Goods Committee

Meeting statement

20 June 2014 - Meeting 40

Role of the Therapeutic Goods Committee in the TGA's regulatory decision making process

The Therapeutic Goods Committee (TGC) is a statutory advisory committee established by the Therapeutic Goods Regulations 1990.

The TGA currently has nine statutory advisory committees from which it can obtain independent expert advice on specific scientific and technical matters to aid the TGA's regulatory decision making and other regulatory processes. The Therapeutic Goods Committee provides advice to the TGA on, among other things:

- the adoption of standards for therapeutic goods
- the requirements for labelling and packaging of therapeutic goods
- standards for the manufacture of therapeutic goods
- matters relating to medical device standards, conformity assessment standards and standards for biologicals.

The advice provided by the Therapeutic Goods Committee is an important element in the undertaking of the regulatory functions of the TGA. However, it forms only part of the information that is available to a TGA delegate making a regulatory decision under the *Therapeutic Goods Act 1989*. While appropriate consideration will be given to such advice, it is important to note that neither the TGA nor a TGA delegate is obliged to follow it.

Information about committee advice may not become publicly available for some time. The purpose of this Meeting Statement is to describe, in general terms, the matters considered by the committee at each meeting and for it to be available as soon as reasonably practical after the relevant meeting.

Update on matters where the committee previously provided advice and a TGA decision has been made

Since the previous meeting, two Therapeutic Goods Orders (TGO) have been determined by a delegate of the Minister under subsection 10(4) of the *Therapeutic Goods Act 1989* in relation to which the TGC has previously provided advice:

- [Therapeutic Goods Order No. 69D - Amendment to Therapeutic Goods Order No. 69 - General requirements for labels for medicines](#) which commenced on 12 June 2014.
- [Therapeutic Goods Order No. 70C - Standards for Export Only Medicine](#) which commenced on 7 June 2014.

Since the previous meeting, seventeen Therapeutic Goods Orders (TGO) have been revoked as spent or redundant by the [Health \(Spent and Redundant Instruments\) Repeal Regulation 2014](#). The TGC has previously provided advice on the TGOs revoked as redundant.

Overview of standards referred for advice

At this meeting, the committee's advice was sought in relation to three Therapeutic Goods Orders, including possible adoption and amendments.

The committee's advice has now been provided to the TGA for consideration as part of the TGA's regulatory decision making process.

Other matters considered

The committee was also provided with an update on the current 'default standards' under section 3 of the *Therapeutic Goods Act 1989*.

Further information

Meeting Statements are made publicly available after each meeting.
